# Strategiexempel från OKG:

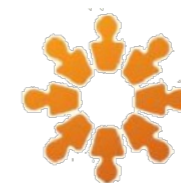

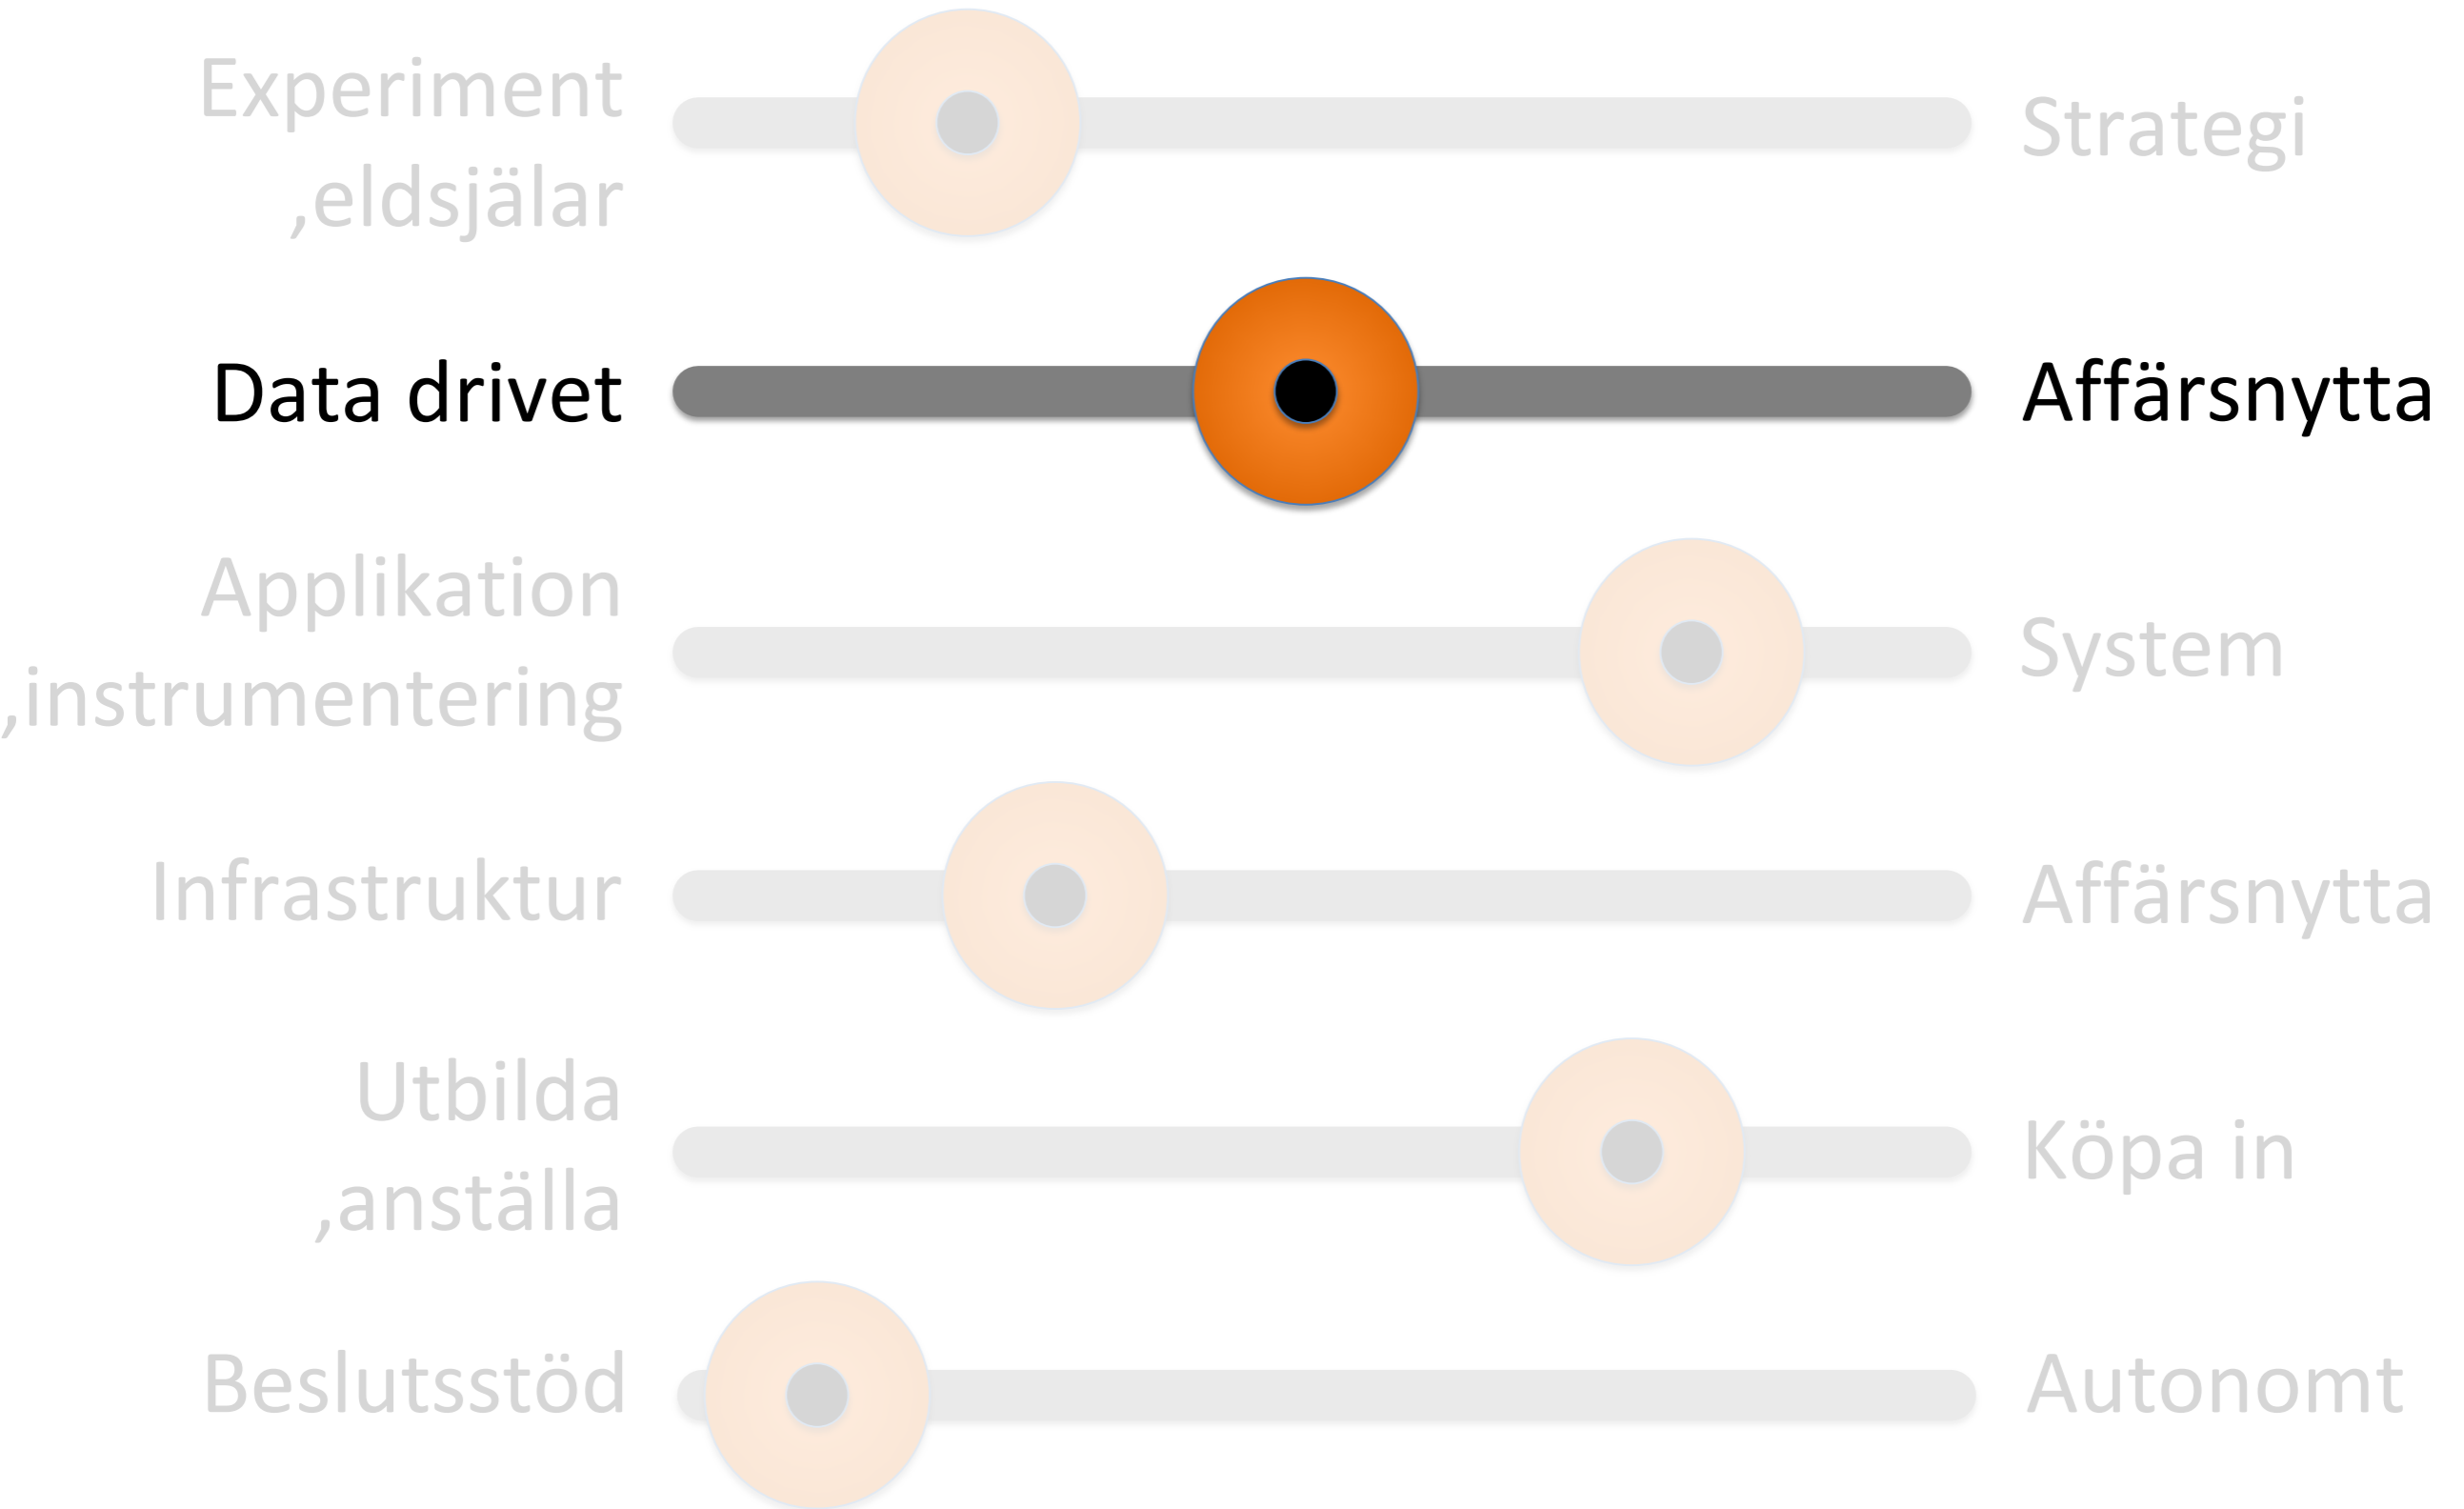

Digitaliseringen tar fram nya tankebanor och arbetssätt och kan skapa tydligt mervärde för industriföretag. På OKG har vi tagit fram en road map för de närmaste åren, som beskriver vad vi vill uppnå med företagets digitaliseringsprocess

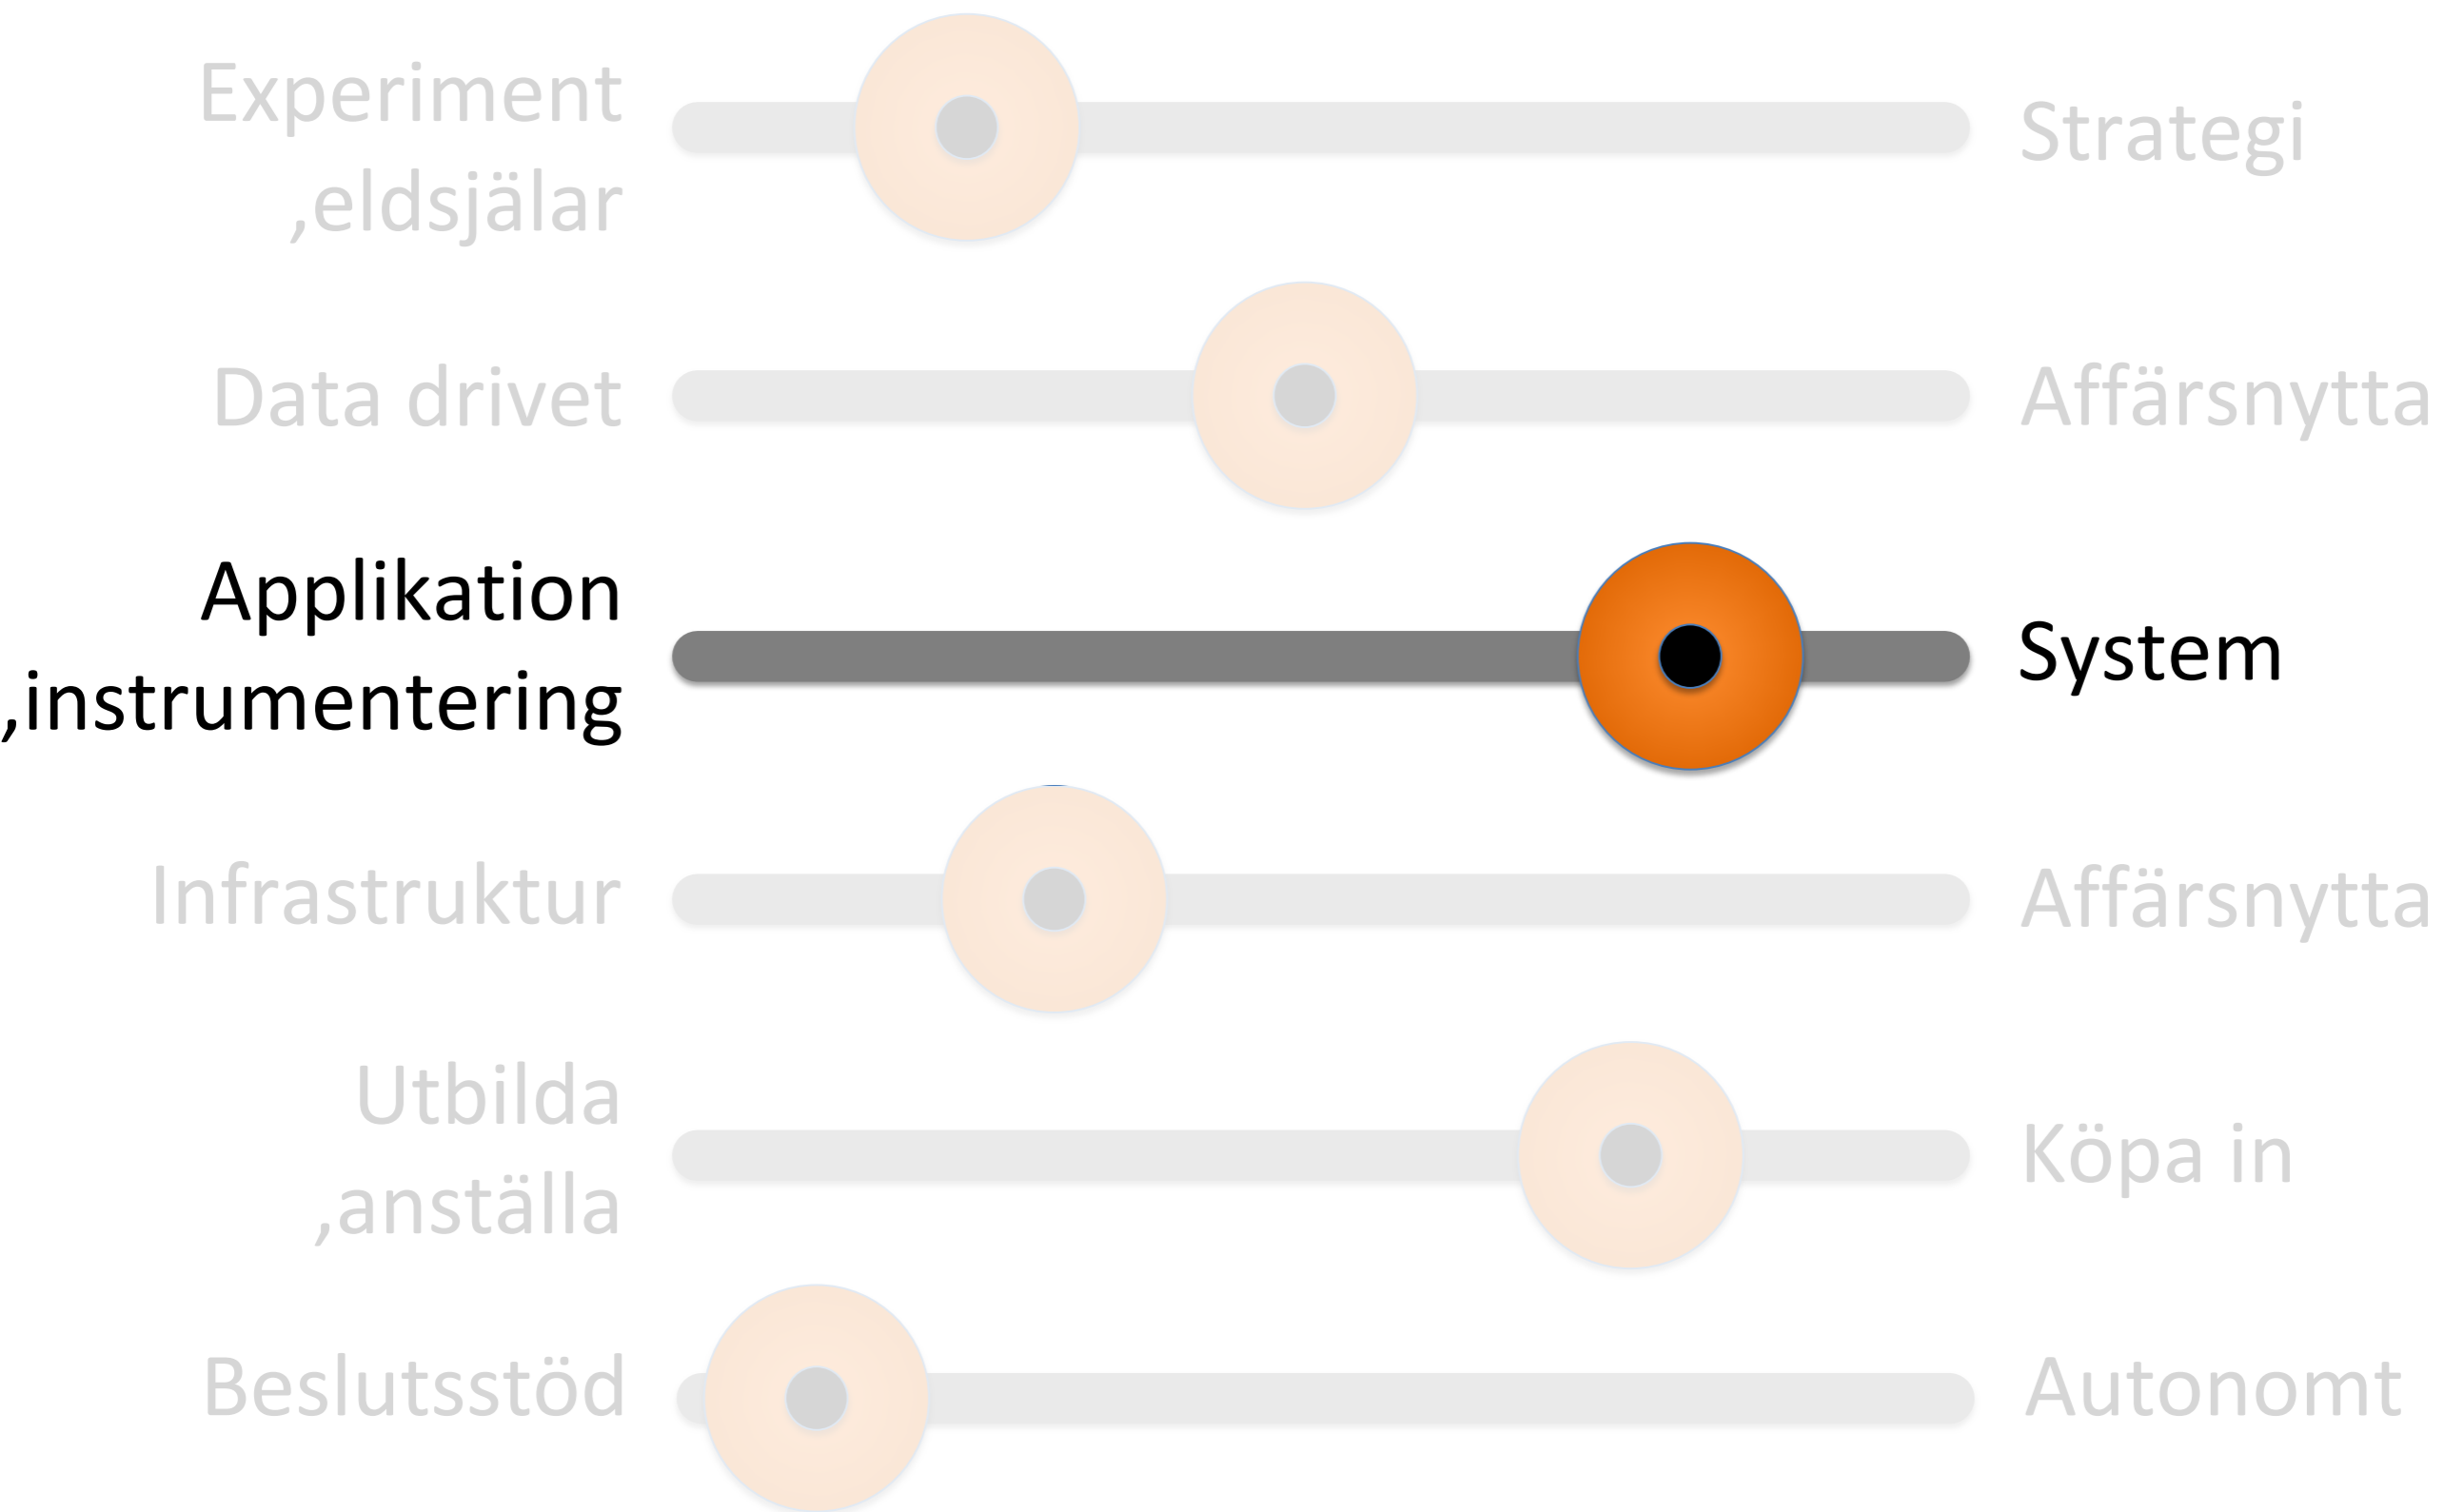

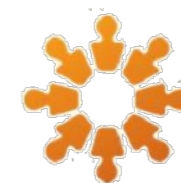

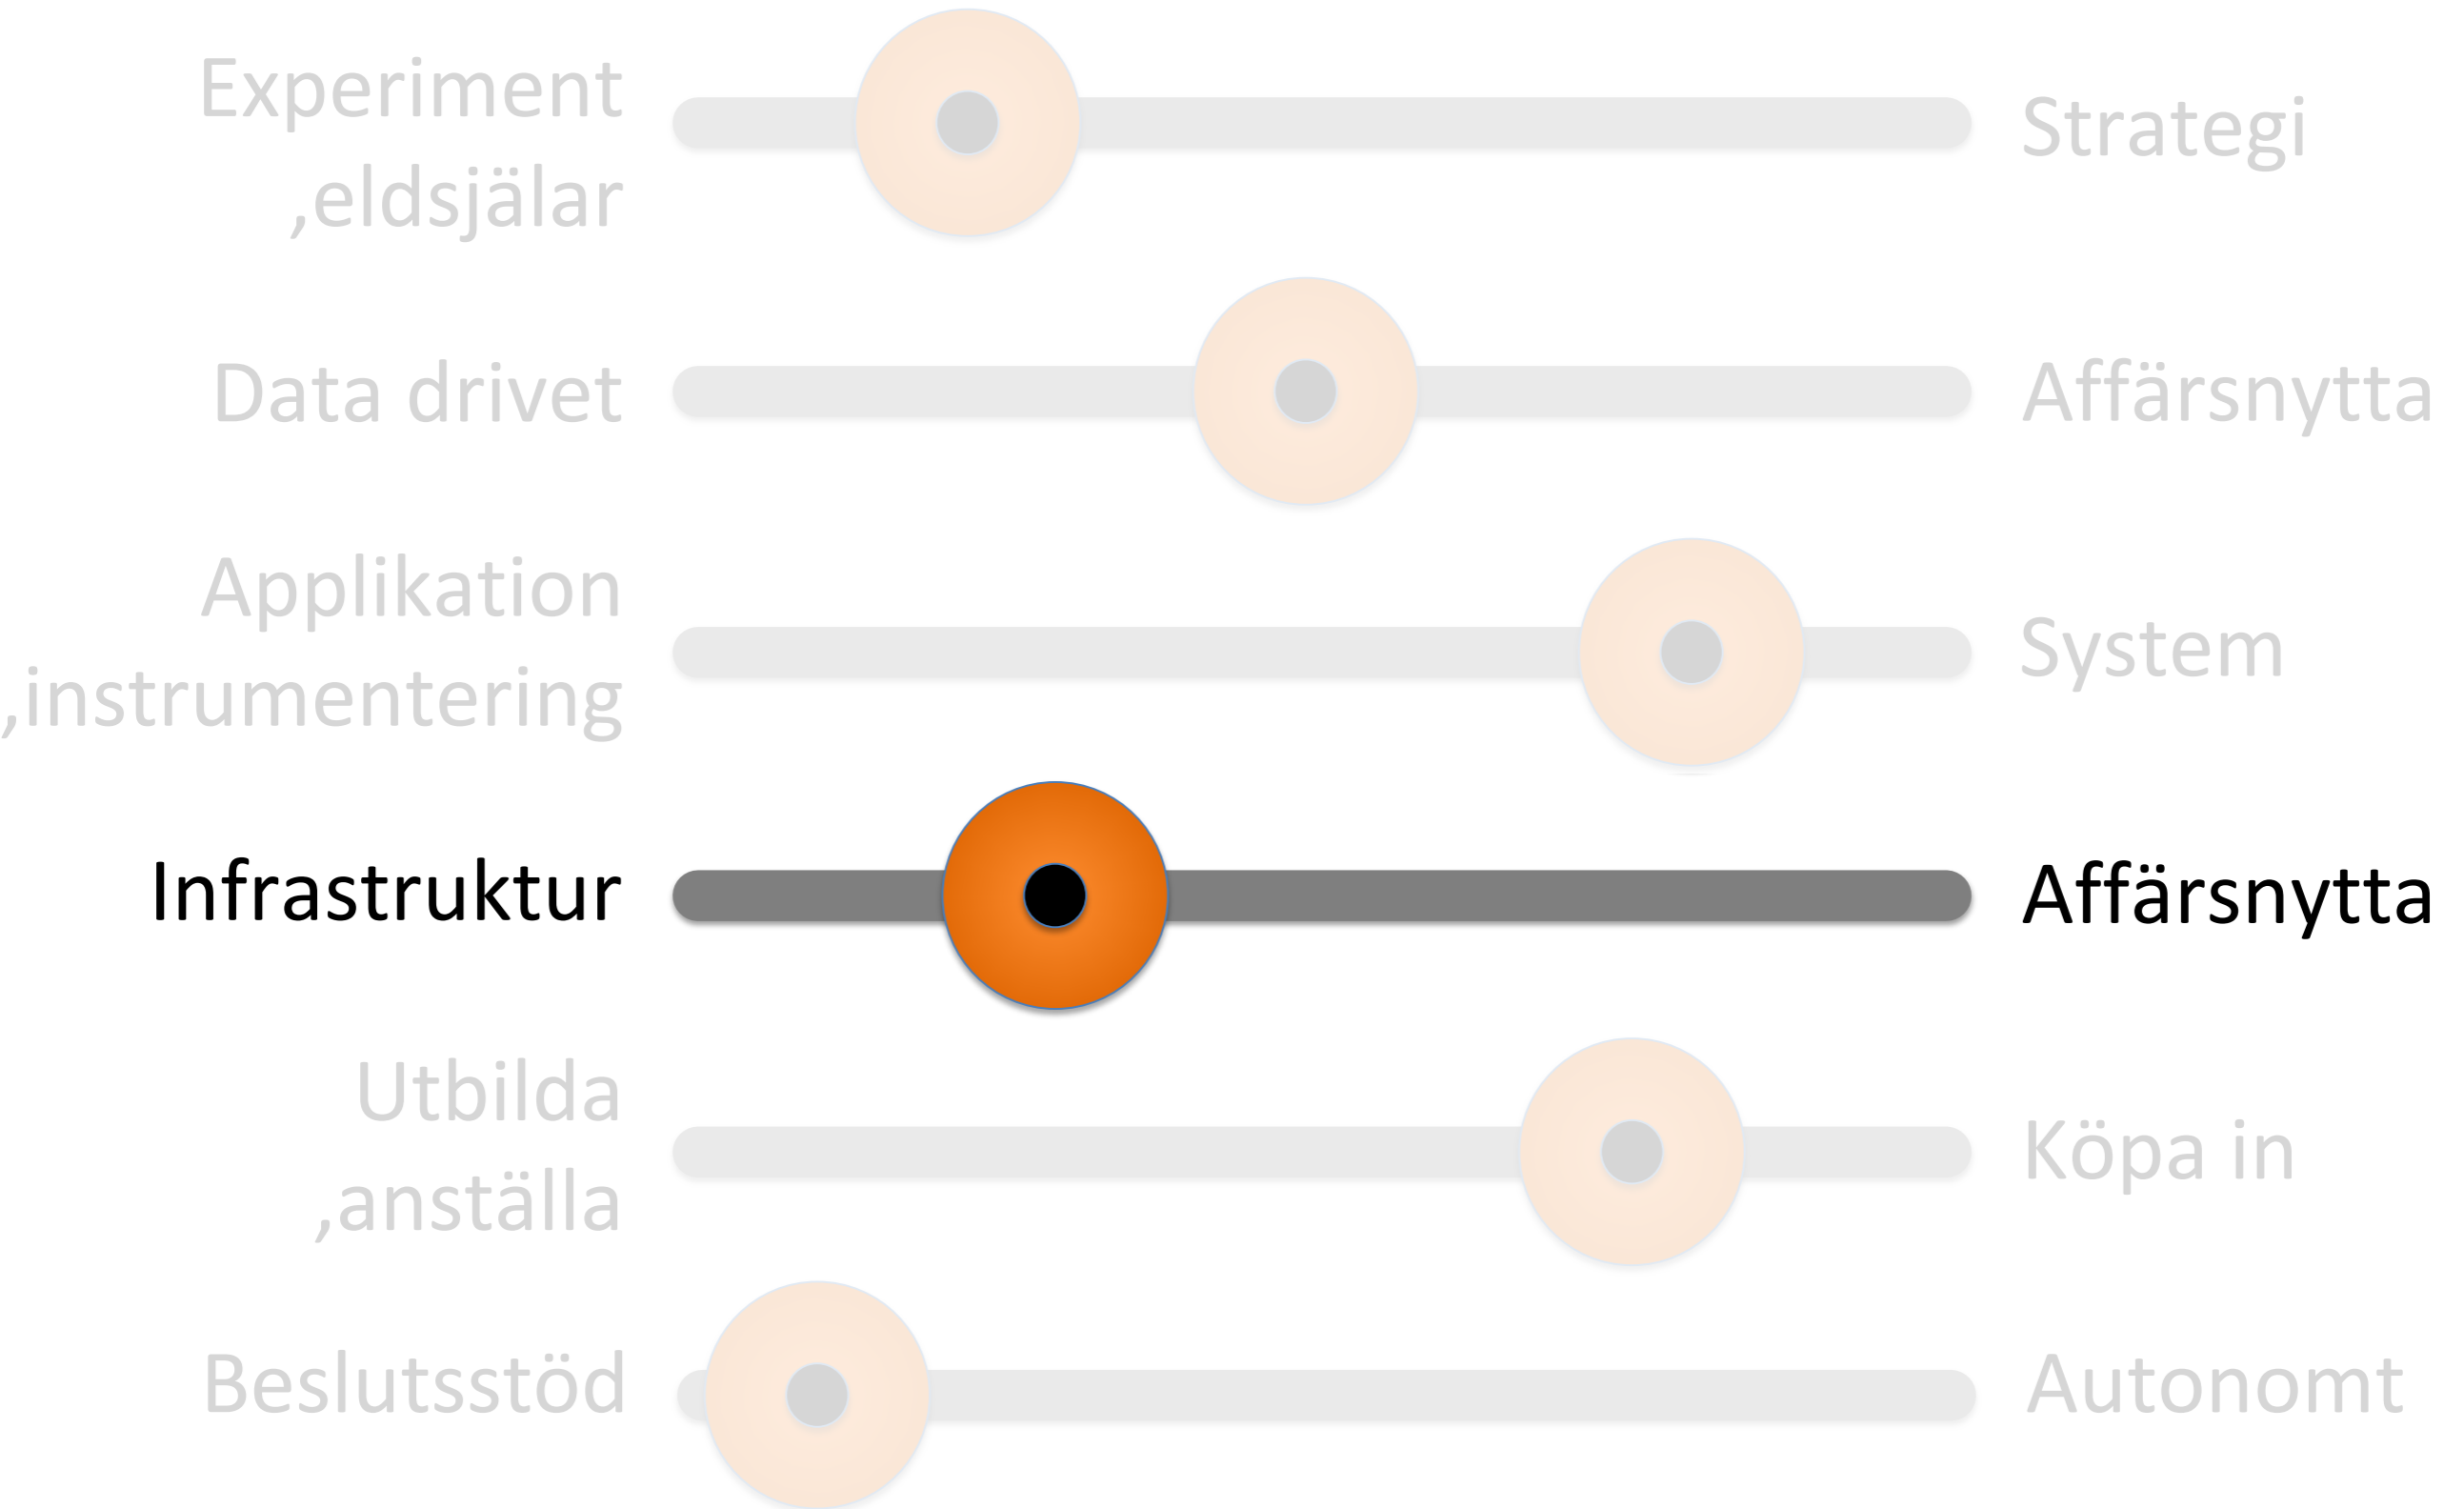

Vi vill uppnå mervärden som ökad säkerhet, ökad kostnadseffektivitet och ökad tillgänglighet. På sikt vill vi bli en attraktivare arbetsplats och redan nästa år vill vi gå i land med flera pilotprojekt inom digitaliseringsområdet
